Fig. D. 448.

These Vises are made with a patented reinforced sliding jaw, consisting of a solid steel bar inserted the entire length of the slide, and thoroughly welded into the casting, thus rendering the slide, or movable jaw, practically unbreakable. No other vises made have this feature.

The steel faces of these Vises are milled and fitted to the jaws and are renewable.

*Nos. 60 and 260 are designed to meet the requirements of Railways and Machine Shops for heavy work.
